- Fabric softener

OLFACTIVE PROFILE

●● Olfactive family

Woody

↪ Odor description

This speciality is a reconstitution of oakmoss, offering a complex woody and earthy character encircling by seaweed notes.

% Suggested Usage

Up to 5%

+ Impact

It gives an elegant, rich accord to floral, fougere, chypre and oriental notes.

★ Great combinations

It blends well in all types of fragrances and gives a soft woody background.

♥ Why we love it

The solvent is triethyl citrate. It's IFRA compliant with a very small amount of allergens.
