

Para Cresyl Isobutyrate

Ref Synarome : 085465

CAS Number : 103-93-5 FEMA : 3075

TECHNICAL DATA

Appearance : colorless liquid

Flash point : 96°C

Vapor pressure (20°C) : 0.03 mmHg

Chemical name : 4-Methylphenyl isobutyrate

Chemical Formula : C₁₁H₁₄O₂

Molecular weight : 178.2

Log P : 3.05

GC purity : ≥ 98%, contains 0.1% of para-cresol

SUBSTANTIVITY

Tenacity on blotter : 2 weeks

STABILITY

GOOD ★★ ★

- Fine fragrance
- Shampoo / Shower gel
- Cream

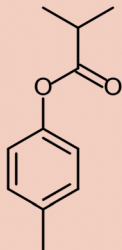

MODERATE ★ ★ ★

- Candle
- Incense

REGULATORY

BIODEGRADABILITY

OLFACTIVE PROFILE

●● Olfactive family

Animalic

↷ Odor description

An intense floral animalic note, reminiscent of narcissus with an exotic fruity aspect.

% Suggested Usage

Up to 2%

+ Impact

It brings the natural animalic aspect of opulent flowers.

★ Great combinations

It blends well with all intense white flowers, fruits, chypre and leather notes.

♥ Why we love it

It helps to white flowers reconstitution.
